

Wake up everybody! Don't want to be late!
I'm getting my braces, today is the date!

Let's get there real early, I'm ready to go!
The waiting room has lots of games don't you know!

Then Dr. **HaveOneSuperSmile** will take me and say
Sit down, watch TV and we'll be on our way.

He's cool and he came on a rocket that talks
But the coolest is getting some braces that rock!

Powered by NASA a Rocket made these,
Engineering my smile, perfection indeed.

It's easy, he told me...it's like 1-2-3
And the movement will take less time, you will see!

So I will show him my teeth and my beautiful face
And our secret will be that my smile's from space!
