

“Reinventing and transforming the dental experience”
— for Parents!

PARENT DENTISTRY!

Adult dentistry, *The Super Dentists’ way*

We’re Changing Everything You Hate About Going To The Dentist. You hate the needle? We’ve got **computerized anesthesia**. Gag on those awful impressions? We’ve got **digital oral scanners**. Don’t want to glow in the dark because of X-rays? We use low- to **no-radiation** cavity detection technologies. Can’t stand the taste of latex gloves? We’ve got you covered with **flavored gloves** — try our piña colada!

CONVENIENCE

World-class dentists, state-of-the-art technology and grown-up amenities ensure parents receive the highest quality dental care and enjoy an out-of-this-world experience — just like the kids.

Schedule your **dental appointment during the same time as your kids’ appointment** at The Super Dentists. Your children receive a super tracker watch and you receive a super tracker phone allowing you to **communicate with your children at all times** while we take care of them and you. Our **“one-stop shop”** for the whole family offers all the dental specialties — pediatrics, orthodontics, and now, parents — under one roof.

Extended hours fit your busy schedule Monday–Friday, 7 am–7 pm and Saturdays

VIP TREATMENT

The Super Dentists love to spoil parents the same way we do the kids. Relax in our VIP — Very Important Parent — lounge, enjoy a **latte with personalized messages in the foam**, access the Internet or enjoy some quiet time. In our exam rooms, **spa-like amenities** include **relaxing aromatherapy, warm towels, massage chairs** and even **virtual reality masks**.
